

technical

Greetings everyone, It gives us immense pleasure that you are going through the E-Cell Yearbook. It has been a glorious year for me as the Technical Lead of E-Cell and I'm feeling joyful for being a part of this esteemed organization.

To succeed, a team needs each of its members to be highly motivated and dedicated towards his work, and I've no doubt that the E-Cell has got it all, which makes it even more fun working with the team. I'm sure that the experience that I've gained from serving as a team will be proven fruitful in my endeavours to come.

SOMEONE HAS SAID IT QUITE WELL THAT, "IT'S NOT ABOUT IDEAS, IT'S ABOUT MAKING IDEAS HAPPEN" AND IT'S WHAT EXACTLY WE DO HERE AT E-CELL.

Hoping you will have a pleasant time reading this book.

Best Regards,
Sameer Kumar Kushwaha
Technical Head
